Realty ONE Group Celebrates 2nd Anniversary With 1,000th Agent

Realty ONE Group experiences phenomenal growth as it embraces its innovative business model and technology.

LAS VEGAS - Realty ONE Group is growing in size and success. Starting with a small group of dedicated staff, the innovative firm has rapidly become one of the top real estate agencies in Las Vegas. With the recent hire of their 1,000th agent and the opening of their new \$2 million headquarters in Summerlin, Realty ONE Group enters its third full year of operation, pursuing continued growth and expansion.

Since its inception in May 2005, Realty ONE Group has pioneered the use of technology to provide their agents and clients an unequaled level of service and value. "No other real estate firm in Las Vegas was doing what we were doing when we first launched," says Realty ONE Group President Kuba Jewgieniew. "We took a risk of embracing a new business model and the results have been phenomenal. We believe that the balance we've achieved between technology and dedicated personal service has made us the preferred choice for agents and clients alike."

The results: in just two years, Realty ONE Group has opened seven offices in Nevada and Arizona, including a new headquarters in Summerlin, state-of-the-art facilities in Green Valley (Henderson) and the Northwest area of Las Vegas, an office in the fast developing city of North Las Vegas, a Las Vegas Strip location for high-rise sales, and two offices in the Phoenix metropolitan area. The company has diversified its operations to include mortgage and property management divisions, creating a one-stop service for its clients. "We owe our success to our incredible Team of Professionals(tm)," states Jewgieniew. "Realty ONE Group has the reputation of being smart and focused because we've hired the best in the business." The 1,000th hired Realty ONE Group agent is Dave Tina, an award winning, highly respected and top producing Broker Salesman with 30 years experience in the field.

Realty ONE Group is expected to introduce its new paperless transaction system in the near future, which has been in development for over a year.
